

Professor Peter Godfrey-Smith

The Evolution of Sentience

Dyason Lecture 2022

Thursday 13 October at 6:00pm to 7:30pm

Friends Room in the Mitchell Building, State Library of New South

Bookings: <https://www.sl.nsw.gov.au/events/2022-dyason-lecture-professor-peter-godfrey-smith>

How did evolution give rise to feelings, such as pleasure and pain? And which organisms experience the events of their lives in this way? Do insects feel pain? Octopuses? How about plants? Where might we locate the true limits of sentience?

Free, booking essential
